Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 March 2005.

DETAILED ACTION

Election/Restrictions

Applicant's election of Species I (Figures 3A-5) in the reply filed on March 22, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

It is acknowledged applicant's believe that claims 1-5, 7-8, 10-14 and 16 read on the elected Species. The examiner agrees with applicant.

Claims 6, 9, and 15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species, there being no allowable generic or linking claim. The election, in the reply filed on March 22, 2005, was treated as an election made **without** traverse.

Specification

The disclosure is objected to because of the following informalities:

In specification, paragraph 23, line 3, the serial number is missing and must be provided.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3732

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5, 7, 8, and 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Frigg et al. (U.S. Patent No. 6,206,881).

Frigg et al. disclose a system comprising a bone anchor 4 having a head 5 and a distal portion 6 having the ability to engage bone. The system further comprises a plate having at least one hole 3 including a plurality of concentric annular bores (see Figure 3), e.g. the valley of the thread along a longitudinal axis of the hole. The bores engage the head of the bone anchor (see Figure 1). The concentric annular bores includes a first bore with a first diameter and a second bore with a second diameter different from the first diameter (see Figure 3), wherein one bore adjacent to a top surface of the plate has a diameter and a bore adjacent to a bottom surface of the plate has a smaller diameter since the hole is tapered. The peaks of the threads will form a stepped-shaped inner wall and they are aligned in a frusta-conical shape (see Figure 3). A peak plane intersects the axis of the hole.

Allowable Subject Matter

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

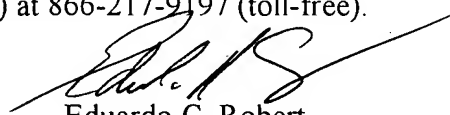

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892 for art cited of interest.
